Below is some important information about the upcoming concert. We look forward to seeing you at *Rogers Centre* - enjoy the show!

About The Show: *The Jonas Brothers World Tour 2009* will present the band's most ambitious production yet, including a massive 140-foot stage placed in the centre of *Rogers Centre* offering a 360° view, and cutting edge technology including a one-of-a-kind circular water screen, multi-colour laser effects, motion automated video screens and other surprises. In addition to the tour production,

Rogers Centre will be augmenting the audio and video systems to ensure optimal sound and video quality for all guests, regardless of seat location. The additional production equipment is being coordinated through Live Nation from local production suppliers such as Solotech and Clair Global who, along with Live Nation, are production leaders in the event & concert industry.

Opening Acts: Make sure you arrive early as you don't want to miss any of the other performances. Leading the way will be **Jordin Sparks**, who rose to fame as the winner of the sixth season of *American Idol*. Also performing will be **Honor Society**, who performed the lead single in Summit Entertainment's Bandslam. Honor Society is set to release their debut album *Fashionably Late* on September 15, 2009, preceded by the Bandslam single "Where Are You Now".
